From: Chris Nixon, Committee Chair
To: Whitney Smith wesmith@uark.edu
Date: September 26, 2017
Subject: Summary — RFP 637938 Enterprise Form Builder

Whitney,

The evaluation committee has completed the review and evaluation of proposals for an Enterprise Form Builder platform under RFP 637938. Proposals were received from the following vendors:

1. Lexmark
2. Versivo
3. Ricoh

After receiving the best and final offer responses, the evaluation committee met on February 1, 2017, with all committee members present. We discussed the various proposals to determine the best fit for the University. Following our discussion, each committee member prepared final scores and included notes on the score sheets.

The recommendation of our RFP committee is to award the request to Lexmark/Jadu based on the following points:

1. Solution meets our ADA obligations in both the back end development environment and the public facing forms.
2. Unlimited authors ensures readily access to any form manger on campus
3. Approval processes around the use of protected form elements
4. Native integration with Perceptive imaging platform
5. Native integration with CashNet
6. The ability to integrate with current and future system that leverage standard APIs.

Evaluation forms and supporting documentation have been forwarded to your office.

The committee wishes to thank each respondent for their interest in doing business with the University of Arkansas, and for their efforts in responding to the RFP.

Thank you for your assistance with this RFP process.

Best regards,

Chris Nixon
Director, University Relations
