IFB 05142026
Garvan Woodland Gardens Holiday Lights Assembly and Disassembly
Vendor Q&A

1. *Question:* Item 19: Are we hanging the framework for this element and are the nylon lanterns individually hung requiring its own power cord?

   Answer: This year we are trouble shooting the best way to hang the lanterns as this is the first year with this system. We will be assisting with the raising of the netting and getting it in the proper location. We envision that the elements will be assembled on the ground with a mother wire and lifted into place on the netting. The vendor will install the lanterns on the netting and Garvan will assist with lifting the netting into place.

2. *Question:* Item 33: Are we hanging the framework for this element and are the nylon lanterns individually hung requiring its own power cord?

   Answer: This year we are trouble shooting the best way to hang the lanterns as this is the first year with this system. We will be assisting with the raising of the netting and getting it in the proper location. We envision that the elements will be assembled on the ground with a mother wire and lifted into place on the netting. The vendor will install the lanterns on the netting and Garvan will assist with lifting the netting into place.
