

**Q&A Addendum  
ARE-ON Leased Data Circuits  
IFB 659351**

**This document provides question and answer information pertaining to the above captioned IFB and will be updated as necessary.**

**Posted November 8, 2017**

**Question:** Is a VPAT required for this IFB?

**Answer:** Please submit the form with your response, and if it does not apply then simply note “Not a telecommunications or technology product” (refer to page 6 of 13 of the Terms and Conditions Document - and screen shot below):

Note: All vendors should complete the VPAT form as it relates to the scope of the item(s) or commodity requested in the bid solicitation. Our expectation is that the vendor will assign technical personnel who understand accessibility to the task. If a component of a VPAT does not apply, it is up to the vendor to make that notation and explain why in the “Comments” column. The notation can be as simple as “Not a telecommunications or technology product.”

Please note here if a Voluntary Product Accessibility Template (VPAT) form **IS or IS NOT INCLUDED** with this bid response. \_\_\_\_\_.

**Question:** Section 2, parts 15-17: Is acknowledgement of these sections sufficient, or should copies of the procedures and sample SLA be submitted with the bid?

**Answer:** Acknowledging those sections is sufficient
