RFI Responses:

Pre-Proposal RFI #1: I just want to confirm if the UofA is looking for a contractor to supply/install this or are they just looking for the material to be supplied?

Response:

This request for proposals is expecting manufacturers to respond with pricing for material to be supplied as outlined in the RFP. Part of the proposal response from the manufacturer's should be to provide a detailed list of Manufacturer Authorized installation contractors within a 250-mile radius of the campus (as outlined on page 4 of the RFP).
